Open Appeal of Bosnian-Herzegovinian Intellectuals for an integrated, multiethnic and European Bosnia and Herzegovina

H.E. Tamara Gutman,
Canada's Ambassador to Bosnia and Herzegovina
Canadian Embassy Budapest, Hungary

Excellency,

On behalf of the Initiators of the Open Appeal of over 200 highly regarded intellectuals of Bosnia-Herzegovina and the Letter of Support of many esteemed individuals from around the world, who have spent considerable time and energy in preparing what we believe to be two significant documents for the appropriate movement of the multi-ethnic state of Bosnia-Herzegovina into the future and the overcoming of our currently dangerously chaotic state, we take it upon ourselves to send you both documents, namely:

the Letter of Support of esteemed individuals from around the world – scientists, statesmen, writers, artists, and journalists – who are concerned for the fate of our country and the Open Appeal of Bosnian-Herzegovinian Intellectuals

We are therefore kindly requesting that the officials with whom you can come in contact should be given these documents for their consideration so that they might lend their support, especially in the calling for a constitutional convention for Bosnia-Herzegovina that would make possible a new and appropriate constitution of a European and American style for a multi-national state. This is needed to replace the currently existing non-functional constitution. As stated in the “Open Appeal”, the constitutional convention should be backed up by provisions for immediate international legal arbitration by experts in this area to deal with and sort out questions which might otherwise result in a deadlock.

Please note that in the November 24, 2011 issue of *Oslobodjenje* both documents have been published in full in Bosnian. On that same date the Slovenian daily *DELO* published an article on this initiative, and we have already received a significant response requesting inclusion of further supporters, including a member of the European Parliament and a former rector of the University of Ljubljana. On November 28, 2011 the Regional and Transatlantic Portal “Tacno.net – Novosti” published both documents and in 10 days 500 readers gave a positive response. On December 14, 2011 the Magazine “Glas Antifašista” (Voice of Anti-fascists) published both documents, too.

Professor dr Muris Osmanagić is the contact persons for any further information you may require. (e-mail: mosmanagic@yahoo.com; omuris@bih.net.ba)

With sincere appreciation in advance for your assistance in helping to make this information available.
