

INSTITUTE FOR THE RESEARCH OF GENOCIDE
CANADA

Poštovani,

U okviru Internacionalnog festivala dokumentarnog filma u Norveškoj, "HUMAN" u Oslu, 27. 02. 2019. godine planirana je projekcija filma "The case against Ratko Mladic". Nakon projekcije filma planirana je panel diskusija na koju je između ostalih pozvan i advokat optuženog ratnog zločinca Ratka Mladića, Branko Lukić.

Institut za istraživanje genocida Kanada najoštrije osuđuje poziv advokatu optuženog ratnog zločinca da prisustvuje navedenoj panel diskusiji. Taj anticivilizacijski, sramni, neljudski čin je samo jedan u nizu pokušaja udružene antibosanske koalicije da napadima na istinu i pravdu, na sudske, historijske i naučno istraživačke činjenice o agresiji na državu BiH i genocidu protiv njenih građana, posebno Bošnjaka, revidira navedene činjenice. Istovremeno poziv advokatu Lukići znatno narušava reputaciju ovog uglednog festivala dokumentarnog filma.

Institut za istraživanje genocida Kanada traži od organizatora festivala da odmah zabrani učešće advokatu optuženog ratnog zločinca, jer učešće u panel diskusiji je direktno mješanje u dugo očekivanu presudu optuženom ratnom zločincu Ratku Mladiću. Snažno odbacujući svaki pokušaj revizije sudskih, historijskih i naučno istraživačkih činjenica odmah smo obavjestili sve organizacije i zajednice za zaštitu ljudskih prava i sloboda u svijetu o ovome sramnom činu kojim se nastavlja dehumanizacija preživjelih žrtava agresije i genocida u BiH. Pozivamo sve aktiviste ljudskih prava i sloboda, istraživače nauke o genocidu i sve patriote u i van BiH da se zajedno suprostave ovom i svim drugim napadima na međunarodno pravo, istinu i pravdu.

To whom it may concern,

International Documentary Festival “HUMAN” located in Oslo, Norway is taking place from February 25 to March 3, 2019 and has planned the screening of the film “The case against Ratko Mladic”. After the screening of the film, a panel discussion will take place and its guest will be Ratko Mladic’s lawyer Branko Lukić.

The Institute for the Research of Genocide Canada strongly condemns the invitation of the accused war criminal’s attorney to attend said panel discussion. This anti-civilized, shameful, inhuman act is another one in a series of the attempts by the Anti-Bosnian coalition to attack the truth and justice, the judicial, historical and scientific research facts of the aggression against BiH and its citizens, especially the Bosniaks. By inviting Mr. Lukic, a lawyer of an accused war criminal Ratko Mladic, the International Documentary Festival “HUMAN” is damaging its renowned reputation.

Institute for the Research of Genocide Canada urges the festival organizers to immediately prohibit the participation of layer Lukić who represents an accused war criminal, as his participation in this panel discussion is a direct interference of the long-awaited verdict of the accused war criminal Ratko Mladic. By strongly rejecting any attempts of the review of a judicial, historical and scientific research facts, we have immediately informed all of the human rights organizations and communities in the world in regards of such embarrassing act which continues to dehumanize the survivors of aggression and genocide in BiH. We call upon all human rights and freedom activists, genocide researchers and all of the BiH patriots around the world to unite and counteract this and all of the other attacks on international law, truth and justice.

Sincerely,

The Institute for the Research of Genocide Canada
